# Linked Incursions

**Curriculum-linked**

**Engaging**

**Interactive**

"A highly professional incursion loaded with hands-on learning experiences. The engaging activities enabled students to connect with the curriculum content. A brilliant way to support our unit."

**Jonathan, Ivanhoe Grammar School**

"The sessions were amazing. All students were on task throughout the whole session and there was a tangible buzz as they were moving through the tasks. This also ticked off curriculum that we had not ticked off in the school year."

**Rachel, Balwyn Primary School**

"The students were engaged and it catered to each individual. The whole incursion from start to finish was planned and executed extremely well. Our first experience will not be our last. Would definitely recommend to all schools."

**Derryn, Holy Name Primary School**

"We loved our incursion. It covered so much of the curriculum! It was so hands-on for our students, they were so engaged and they took away so much learning! Definitely money well spent and a priceless learning experience for our students!"

**Jess, St Anne's Primary School**
